

# **An Introduction to deep-sequencing analysis for biologists 2019 – 2020**

(course code 20203331)

## Course requirements and grades:

Attendance and participation is expected and recommended but not mandatory.

## Grade Breakdown:

The final grade will be composed of 50% assignments grades, and 50% final exam.

Grades will be updated on your submitted assignment file on WEXAC.

## Assignments:

- During the course, there will be 10 assignments. It is obligatory to submit at least 8 of them.
- Weekly assignments will be published every Tuesday on the course website. We are available for question regarding the assignment on recitation (exercise) time on Wednesday.
- Assignments must be submitted on time, due by the next lecture.
- Submitting a complete and correct assignment will credit 6.25 points per assignment. When submitting more than 8 assignments, the highest 8 grades will be considered.
- Assignments which will be submitted after the due date will not be checked.

- Assignments should be submitted on the WEXAC as explained in Exercise1.
- Any special problems regarding assignment submission should be addressed before the due date to [noa.wigoda@weizmann.ac.il](mailto:noa.wigoda@weizmann.ac.il)
